## The Money Market Chemically Analyzed.

The danger of a revulsion—a crisis, a crash,—is, in a measure, over. The day of impending ruin is postponed *sine die*. Stocks have had their time to fall. Western speculation is cheek-mated. The credit system has been dosed with a settling concoction, that is carrying down the impurities and sweetening the oil of trade and commerce. Contraction, consolidation, and crystallization are taking the place of fermentation. Like a good chemist, we have agitated the commercial and financial cauldron. We have poured in the acids and alkalis—watched their effect, and are the first to announce a REACTION. Time is now necessary for settlement. Caution, prudence, a steady hand, small amounts, prompt returns, and solid backing, are all that is necessary.

HON. H. J. RAYMOND no sooner leaves America than he begins to learn what is doing here. This is a portion of his first letter to the Daily Times:

Whales and sharks have fled at the sound of the steam-whistle and the paddle-wheel, and not a solitary fish did we see in the great home of the finny tribe; and we learned for the first time that we are not in future to be so much indebted to these monsters of the deep. Some enterprising Yankee—[that's us]—has proved that coal will furnish oil, wax and naphtha, as well as fuel, in great abundance, and at less expense than all animals and other materials put together. We understood the necessity, when we stood for hours in the engine-room, and saw how often those ponderous wheels and shafts, and any part exposed to friction, must be lubricated. And multiplying as any kind of machinery is, all the whales of the sea could not furnish the necessary supply. The oil from coal is free from the glue which in other oils soon becomes a cause of friction, and its lamps—of destruction. The same amount will burn longer and clearer—the same quantity, therefore, performing a third more service. Agencies have already been established for furnishing the steamers of Europe, and for the introduction of it into all factories, and wherever machinery is used.

The head-quarters of this Oil movement is at No. 98 Greenwich street—F. F. THOMPSON, Agent.

THE PHILADELPHIA LEDGER gives a list of notices of intended application to the next Legislature of Pennsylvania, for special charters for thirty-six new Banks, and of an aggregate increase of capital of \$7,900,000. Last year there were twenty-six applications, with an increase of capital of over \$11,000,000—of which the Legislature granted eighteen out of the twenty-six, with an aggregate capital of \$6,000,000. In addition to the above, we see a number of notices for increase of capital of old Banks.

These special charters are behind the age. If more Banking facilities of the State are required for commercial and manufacturing purposes, pass a General Banking Law similar to that of our State—always omitting the mortgage privilege as a part of the securities,—and then the public will feel a safety in taking and holding the circulation; but your "special charters" are nothing more or less than a legal authority for a class of men to swindle the public, if they find it to their interest to close up their Bank and do so.

THE MERCHANTS' EXCHANGE BANK of this city has declared a semi annual dividend of 4 per cent., payable on the 10th of July.

A NEW BANK has just been organized at Dundee, in this State, called J. T. RAPPLE'S BANK. We are not yet advised of the names of the officers.

THE COUNTERFEITERS have got off a new batch of one-dollar notes on the Northern Bank of Kentucky, much superior to those recently put in circulation. We have no accurate description of them yet. Better refuse all ones on that Bank.

KENTUCKY TRUST COMPANY.—The Commissioners, having in charge the matters of the Kentucky Trust Company, we learn, will make a final dividend in September next. Notes not presented before that time will be worthless. They are now purchased by the brokers at 50 cents on the dollar.

IT WAS THE Merchants' Exchange Bank, Bridgeport, Conn., not the "Connecticut Bank"—as we had it last week—that a move was made to annul the charter of, in the Legislature; but the motion failed, and the Bank is prosecuting business as usual.

A MEETING OF THE FREE BANKERS of Indiana was held in Indianapolis on the 25th ult., says the Louisville Journal. The gathering was an exclusive one—private and secret. Its purpose, however, has transpired, and was the taking of steps toward the establishing in Indianapolis of a Union Bank, in which all the free Banks in the State are to be stockholders, with a capital of \$500,000. The object of this is the protection of Indiana Free-Bank currency by driving out Ohio, Virginia, and all other foreign Bank-notes, to put down the rate of exchange, and to further the adoption of such a policy as shall, with reference to foreign Bankers, promote the interests of those concerned.

## FINANCIAL AND COMMERCIAL.

WEDNESDAY, July 8, 1857.

The revised Tariff, as altered by Congress, at its last session, went into operation on the 1st inst. This act reduces the duties on nearly all articles which enter into the general consumption of the country, and places many articles on the free list which are considered raw materials in the composition of our manufactures. Iron, cotton, woolen fabrics, hemp and sugar have a reduction of one-sixth on the present duties. Distilled spirits and liquors are reduced from 100 to 75 per cent., with a general reduction of 20 per cent. on all articles not carried to the free list or reduced either to four or eight per cent. Wool costing less than 20 cents per pound will henceforth be free. In anticipation of the reduction, a large amount of goods imported recently has been left in public store. The withdrawal of sugars, it is said, will be large for re-exportation this week and next, but very light for consumption. The withdrawals of raw wool will be large.

The Official returns of the City Banks of last week show little variation in the loan and discount balance from the previous week, being an increase of \$28,884, while the increase in Specie counts up within a mere trifle of \$2,000,000. The deposit account has run down over one and three-quarter millions—caused in part, if not wholly, by the increase of the Banking Capital during same time—being \$2,417,000. The comparative figures show:

Increase in Loans	\$23,884
Increase in Specie	1,638,955
Increase in Circulation	396,595
Decrease in Undrawn Deposits	1,825,529

The Banking Capital of the city has, during the past year, been increased over \$7,000,000, while the loan and discount account has, during the same period, increased less than \$6,000,000—showing an emphatic conservative course on the part of our Banks.

The Money market is quiet and working easier. Call loans are readily made at 7 1/2 per cent., and first-class indorsed paper negotiated at 7 1/2 @ 9 1/2 per cent.; single names, usual time, find purchasers at 8 @ 9 1/2 per cent. Railroad Securities find little favor, yet, among capitalists.

We hear no complaints of the want of monetary facilities in Boston or Philadelphia—everything working most satisfactorily.

Foreign Exchange is quiet—rather dull. Sterling bills of our first houses are offered at 9 1/2 @ 9 3/4 per cent., and Commercial at 9 @ 9 1/4. Owing to an increased demand for Gold in Paris, bills on that point are a trifle higher, selling at 5.15 @ 5.17 1/2.

The balance in the Sub-Treasury of this city, last evening, was \$10,035,542 31. During the day there was received \$439,038 39.

The Stock market took an upward turn last week and continues to give evidence of further appreciation of most of the Securities offered at the Board. The late heavy depression elicited much inquiry as to its cause, and when that investigation resulted in satisfactory evidence of the fact that it was purely a bear movement, followed up with a boldness worthy of a better cause, there were some equally resolute, who were satisfied it required but a bold move and firmness to bring about a reaction, so—they pitched in, and the consequence is, that, almost without an exception, all classes have gone up some 10 to 15 per cent., and the market closed, last evening, with much firmness. We shall be much mistaken if a month hence, prices are not 10 to 20 per cent. above present rates. See table for prices.

COMPLAINTS ARE MADE by New York merchants of the want of public stores to which the cargoes of the ships can be sent. Under the Revenue law, which says the Collector shall, at the end of 20 days, grant ships a general order to discharge, the Collector declines to give permits, as usual, in five days after the ship's entry, taking the benefit of the delay the law allows, to obviate the necessity of hiring or making more bonded warehouses. The accumulation of goods in bond is an anomaly in the commerce of the port, and the Secretary of the Treasury will render an important service by taking such action as will relieve ships from the embarrassments it causes.

The figure on the line with the Bank expresses the Discount on its notes.  
The descriptions under each Bank are of Counterfeits or Alterations on the Bank.  
The letter (F) on the line with the Bank shows it to be a False Bank, with notes secured by a deposit.  
The letter (D.) means that we consider the Bank Doubtful.  
A dash (-), that it is unavailable.  
An Index (I), that we know too little of the bank to quote it.

Is, viz. female, State arms, sword and scales—female	
on right and left end—imitation of genuine but engraving	
bad	
Is, viz. a figure of Justice—Cashier's name engraved	
and re-touched with a pen.	
Is, let. E—viz. blacksmith shop—Cash. and Pres. have	
no period—the genuine have.	
2s, female sitting down—female with scales on left—	
medallion head on r. h. t.	
2s, let. B—imitation—of genuine—has a bluff behind the	
stem-lobes; genuine has not.	
2s, new plate—rough engraving—viz. a man and woman	
each side of State arms—female with scales on the	
right—portrait of Adams on the left.	
2s, let. B—Indiana dir. Branch—the figures 2 are not	
plain; in the genuine they are—the "T" and "W" in	
two join in the genuine they do not touch.	
2s, let. D—A. P. Andrews, Jr., Cash., S. Merrill, Pres.—	
the eyes of Fulton on right end of note are, blurred.	
3s, in the engraver's imprint, Y in New York has the	
heavy stroke on the right side, instead of the left.	
3s, the lines of shading around the heads of Taylor and	
Cass are plainly to be seen, while they are not perceptible	
in the genuine.	
5s, 10s & 20s, viz. man and woman seated on each	
side of a circle with an eagle on it; a State House in the	
distance—on the upper left corner a deer; on lower corner	
a buffalo—on the right end a female with her hand on the	
denomination.	

58, imitation of genuine—vig. female with scales, angle, &c.—female on the right and left end.

59 & 108, miniature in the same hand—the female's dress is plain and without a proper shading; on the genuine it is plain and distinct.

60, vig. two females sitting on an iron chest, like most of the genuine notes—around the v. are coarse striped lines, easily seen; on genuine they are perfectly clouded.

63, lets. A. V.-vig. caudors—heads of Washington and Lafayette on the ends—genuine have Franklin and Wayne.

64, contra vig. a ship, which none of the genuine have—the name of Morris is engraved.

68, let. D.-vig. a woman and ship, with portraits of Washington and Lafayette rather dull—V on the left and margin is too narrow, and not well proportioned.

69, vig. a female looking to the right, her arm rests on a sheaf of wheat, plow, &c.—in genuine the vig. is the same but the female faces the left.

75, engraved by W. Dane & Co—Rawdon, Wright & Hatch, or J. P. per, Tolpan & Co., have done the engraving the Bank.

108, larger size affix—vig. female's head, or small, narrow, large set, steel cut in distance; meallum road on the left of vig.—TEN on left—10 and ran cars on right—shipping anchor, merchandise, &c., between the figures—the Bank has no plate like it.

108, vig. an Indian viewing a train of cars—arch of cars and lady and gentleman on the right, and sheet of grain on the left end—paper and engraving poor—as genuine notes like this.

108, let. A.-vig. a naked figure sitting, a sailor, ship, &c.—at the bottom is an Indian in a canoe—names of Washington and Lafayette on margins.

208, vig. circular shield crowned by eagle. &c.

208, let. A.-vig. a man with an arc, a female with scales, and an eagle, &c.—Goddess of Liberty on right—excellent imitation of genuine.

208 & 1008, altered from 58, clumsily done, having retained the heads of particular individuals, as all the 58 have; none of which are on the genuine 208 or 1008—upper and lower margin cut off—making alteration.

1008, let. A.—payable prior 1878—1, is dated March 4, 1843—very well executed.

BURGLARS FRUSTRATED!!  
Delays are Dangerous!

Cheapest and only reliable Security in the WORLD.

Like the Rocks of Gibraltar, they are impregnable! Desiring the perfect security of their funds against all grades of depredations, by the most "Adroit Modern Burglar," an object of importance, will at once supply themselves with this invaluable safeguard.

**BACON'S BURGLAR-PROOF BANK SAFE,** Composed, not of cast iron, but of the best quality of English Spring Steel (hardened) and wrought iron, the best and only materials (against the action of Drills, Saws, Jimmies, Jack Screws, Sledge Hammers, &c., &c.) the world has yet produced, secured with heavy wrought iron bolts, (see engraving,) and

**Yales' Patent Improved Duplex Bank Lock,** Which is unparalleled in point of simplicity, strength and perfect protection against picking or explosion by Gun Cotton or Powder.

These Locks and Safes are in use by nearly all the principal Banking Institutions throughout this country, and in no instance has a robbery occurred through them, notwithstanding frequent daring attempts by burglars have been resorted to.

These Safes are made to order of any desired size—the size, however, usually adopted by Banks is four feet high, two feet six inches wide, one foot six inches deep, inside measure—the outside dimensions being about three inches larger, the weight of which is about 2,000 pounds. They are the ne plus ultra of security; in short, they are just the article that no bank should be without.

All orders for the above, also for Iron Vaults, Vault Doors and Frames, made in a superior manner, of any desired dimensions, fitted with Locks of various sizes, shall have early attention, if addressed

WM. W. BACON, New Haven, Conn.

**HERRING'S PATENT CHAMPION AND World's Fair Premium Fire Proof Safes.**

THE Subscribers continue the manufacture of the above safes, secured against burglars, with Hall's Patent Powder Proof Lock, and have now on hand the largest and most varied assortment of sizes and prices in the world, together with new and second hand safes of other makers, received in exchange for the Herring's Patent, at greatly reduced prices. **AYERS' CHERRY PECTORAL** For the Rapid Cure of

**COUGHS, COLDS, HOARSENESS, Influenza, Bronchitis, Whooping Cough, Creup, Asthma, Incipient Consumption, and for the relief of consumptive patients in advanced stages of the disease.**

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of Pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects, and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you and cure your colds while they are curable, nor neglect them until a human skill can master the inexorable canker, that fastened on the vitals, eats your life away.

All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

I am now prepared to furnish the "COUNTERFEIT and SWEATED Gold Coin Detector," an article of the first importance to Bankers and Brokers, and all others receiving Gold Coins. The great increase of late in the emission of spurious Coins and "Sweated" genuine pieces, has rendered our Gold Coins objectionable to many, and thrown a doubt even on the genuine issue. This "Test Scale," by its ready detection of the Spurious or Sweated Coin, will be of incalculable value to all parties receiving Gold Coins, while it will go far towards restoring confidence in our national issue. PRICE \$1.86, including postage. Address J. THOMPSON, No. 2 Wall-st.

AMERICAN GOLD COIN TEST SCALE.
